

PRIORITY 2

2.4 Coast Park

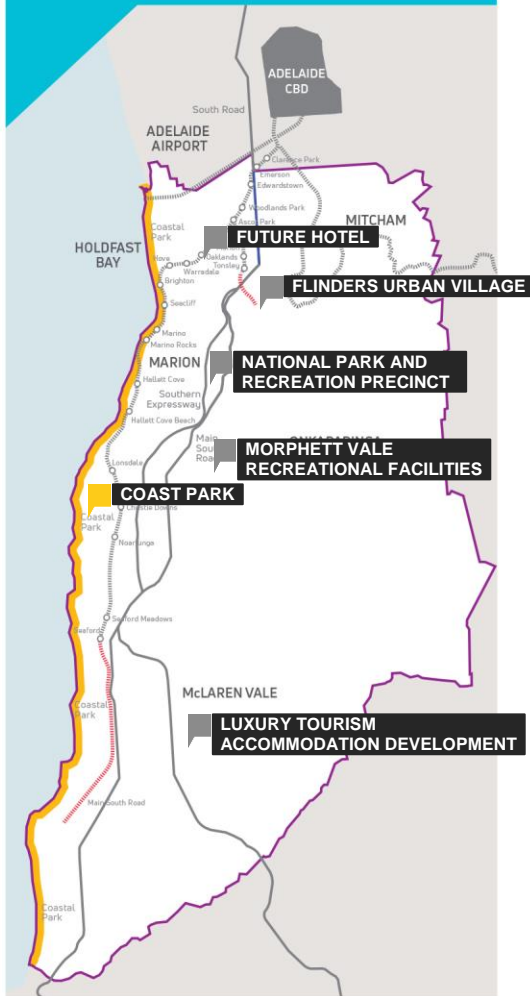

Completion of the Coast Park will support the region's lifestyle appeal to skilled workers, improve connections to other major recreational areas and provide opportunities to market the coastal walking trail as a world-class coastal experience.

The Adelaide Metropolitan Coast Park is a State Government initiative to develop a linear park along the metropolitan Adelaide coastline from North Haven to Sellicks Beach. Significant progress has been made through collaboration between councils and the State Government but several incomplete sections remain in Southern Adelaide.

Accelerating the completion of the trail – with an immediate focus on sections of fragmented coastal accessibility – would enhance southern Adelaide's reputation as a lifestyle, recreation and tourism destination and deliver one of the longest walking trails in the Southern Hemisphere.

Funding support for planning study outcome on climate change, adaption is required to sustain the asset.

Call to Action

1. A long-term financial commitment of up to 75% funding towards more complex and costly sections.
2. Appropriate climate adaption and coastal protection measures planned and funded.
3. Funding to complete the section from Heron Way Reserve to the Field River and Witton Bluff; Port Noarlunga.
4. Technology to enhance the visitor experience.
5. Planning for the Hallett Cove to Noarlunga Trail.
